

Premium wax-resin ribbon

L133

L 133 provides very good printing quality at print speed 10 IPS. It gives excellent print quality with high resistance to smudge and scratch on all smooth materials, coated papers as well as synthetics. Superior back coating technology extends print life to 3+million linear meters.

Technical Specifications

Ink: Wax-resin

Color: black

Film Thickness: 4,5 μ m \pm 0,1 μ m

Ink Melting Point: 75°C(167°F)

Printing Speed:4-10 IPS

Storage conditions: 5 °C-35 °C, 35-80 RH (Avoid the direct sunlight and humid environment.)

Applications

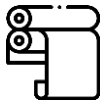

Shipping Labels

Retail, clothing Tags

Tickets

Storage Labels

Polybags

Recommended Media

Coated and uncoated paper tag and label stocks

Synthetic papers

Film (PVC,PET)

Certifications: RoHS, REACH, HALOGEN
